About Us

"Tekop Refrigeration tries to be a reliable company for its customers in the refrigeration sector. "

To be a reliable company in the international trades:

- To identify the right products meeting the customer needs and to avoid wrong purchases.
- To ensure purchasing the right product for the right price.
- To ensure the delivery at the place in time on the agreed date.
- To ensure delivery of the product in the desired physical conditions.
- To ensure the continuity of the products.
- To follow up innovations and the technology.

With its trade partners in 5 countries and almost 50 employees, it has been active to fulfill its tasks since 2000. Projects in various sizes, most of which are "turn-key" projects, have been completed in 46 countries around the world.
